

Educational Science Final Exam 2023/2024 Spring

19th-20th June 2024

The final exam starts at **9:00**. All participants should be present at the beginning of the exam.

The final exam focuses on the presentation, explanation and defense of the thesis. Both parts of the exam are related to the thesis:

- 1) An oral presentation of the theoretical and research part of your thesis, i.e. a defense (ppt or Prezi is recommended), including reflection (questions of the committee), self-reflection, evaluation (20 minutes long) (Evaluation: b) (In this part, the theoretical background, methods and results of the thesis should be summarized, and if possible, the questions and suggestions of the reviewers should be answered. If the answers to the supervisor's and the opponent's questions cannot be included in the presentation, they must be answered at the end.) **All students should send their presentation to the following email address 2 days prior to the exam: peszlen.reka@ppk.elte.hu and bring it to the final exam on a pendrive.**
- 2) Oral defense of the theoretical part of your thesis: a reply to / discussion of the questions asked by Final Exam Committee (Evaluation: c)(The Committee asks students theoretical questions on the topic of the dissertation, examining whether the student is able to analyze and evaluate the theories of his / her broader field of thesis.)

The student's performance is evaluated by the final examination committee, based on the following grades:

a: Grade of the thesis (evaluated by supervisor /a/ and opponent /b/)(Thesis grade 1)

b: Presentation and defense of the thesis (Defense grade 1)

c: Topic elaboration (Defense grade 2)
